

An aerial view of the Tokyo skyline, featuring numerous skyscrapers and dense urban development. The image is overlaid with a teal digital aesthetic, including binary code (0s and 1s) and hexagonal patterns. A red and white logo, resembling a stylized keyhole or a shield with a central opening, is positioned above the main text.

Notes on exhibition booth use

- **Security for Exhibits**

The Show Management office will not be responsible for any loss incurred by natural disasters, theft and loss of equipment. It is highly recommended that each exhibitor to take necessary measures, i.e. obtain an insurance policy for the booth, or station own security guard(s) in the booth, etc. The exhibitors are requested to take any necessary procedures to manage visitors and to maintain the booth as well. In the event of accident, please notify the Show management office immediately.

- **Public Space**

If your booth type is the Startup booth, please do not leave anything such as chairs, exhibits and equipments in front of the booth as the aisle is public space.

- **Audio equipment**

When using electric appliances such as microphones or audio speaker, please set the reasonable volume to other exhibitors.

If it is considered that the volume is interfering with other exhibitors, the Show Management office will notify to modify the volume or stop the demonstration.

- **For Disposal in the booth**

Please take all your waste. If exhibitor left any trash and residual material, etc. to the venue, exhibitor will bear the cost.

- **Photograph**

- **Visitors**

Visitors may photograph in the exhibition hall. If you have any materials, etc. which you do not like to be photographed, please put signs, etc. to appeal visitors.

- **Exhibitors (your booth)**

Exhibitors may photograph/videotape their own booths freely. It must be done in such a manner so as not to hinder the visitors or other exhibitors.

- **Management Office or Press**

The Show Management will issue "Press" badge to press representatives for photographing, which must be worn at all times. Exhibitors are requested to cooperate with those photographers.

For Package Booth and Startup Booth

- **Handling of components**

All of the component and fixtures of an exhibition booth are lease articles. Puncturing to the booth surface of a wall and so on are prohibited.

- **Replacing the monitor to booth wall**

If you would like the installation of the monitor to the booth wall, refer to booth option, please apply to management office.

- **Explanation panel**

The management office will help you the attachment of the explanation panel etc. to the wall.

- **Storage Space**

The lower part of an exhibition stand serves as storage space. Please use for storing a spare catalog, an empty box, etc. Since locking is impossible, please do not use it for storage of valuables.

1. Regulation on Booth Decoration

During the process of completing exhibition and decoration plans, exhibitors are requested to observe the rule and regulations mentioned in this manual. For the booth construction, Expo International Ltd. is the official contractor and any other contractor is not permitted due to limited of construction hours.

Booth Unit

space only

Exhibit space will be provided with floor markings. There will be no booth fittings. Please order your booths decoration to Expo International Ltd. at your own expense.

At minimum, the following items in booth spaces must be facilitated:

- Carpeting
- Dividing walls, 2.7m high (partitions to neighboring booths)
- Exhibitor Name

Electricity Supply

Power supply : ¥15,000 per KW (not incl. 10% consumption tax)

* incl. electricity usage

Note for booth Design

- * All decorations must be installed within the assigned booth space.
- * Hanging banners and/or wires from the hall ceiling is not permitted and Projecting such as video and lighting to the ceiling is prohibited.
- * Displaying floating decorations, such as balloons, etc. is prohibited.
- * By installation of stages, including demonstration and/or any attraction that may have audience/attendees at booth, please design in order to keep sufficient flow of aisle traffic.

2. Height restriction

Booth height, including, booth decoration exhibits, AV, signs, etc. is restricted as below.

- On booth boundaries and/or within 1m of boundaries up to 2.7m high

— Partitions, to neighbor booth, 2.7mH, to be installed by each exhibitor.

3. General Note for Booth Construction

- During the booth construction and moving of the materials, please pay attention not to damage any of the hall facilities, electrical equipment, telephones, city water supplies, and/or other exhibitors' decorations/ exhibits, etc. The exhibitor who incurred the damages will be deemed responsible, and will be requested to repair the damage immediately at the exhibitors' expense.
- Using flames and electricity or gas for welding and any other purposes while moving-in/out, exhibition is prohibited.
- Please prepare and arrange decorations only in the assigned booth area. Please do not leave materials in the aisles or other exhibitors' booths. This rule also applies to the move-out period.
- Please do not place decorations over fire extinguishers, indoor fire hydrants, sprinklers, automatic fire alarm systems, emergency bells, pilot lamps and etc. Do not display exhibits or decorations which may hinder the use of these devices in case of emergency.
- Replacement of exhibited facility and change the decoration is not available during the exhibition.
- Please be responsible to dispose any trash and waste materials from your booth. If any materials are left in the hall, the Show Management Office will dispose such materials without notifying the exhibitor and will charge the cost to the exhibitor.
- Smoking is prohibited in the exhibition halls by the Fire Prevention Law. Please smoke at the designated smoking areas.

4. Fire-resistant Materials

All materials to be used for booth construction, display, etc. must adhere to the fire prevention regulations. If the materials used have not been adequately fireproofed, the Fire Station order take down or rearrange the decorations upon the inspection on the first day of the exhibition.

- Plywood and printed veneer must be fire-resistant, irrespective of the thickness. (use only those with a "Fire resistant label" affixed on the surface, and have five red lines on the back as identification.)
- It is strictly prohibited to use of fire, smoke machine and bringing hazardous materials.
- Carpets and curtains shall also be fire-proofed and bearing "Fire resistant labels."
- When pasting thick cloth and/or frilled paper on the fire-resistant veneer for decorative purposes, those pasted materials must also be fire resistant. However, in case of thin paper, wall paper, etc., this rule does not apply.
- When flammable decorative materials are used such as flag(s), banner(s), clot, carpet(s), artificial lawn(s), etc., must be bearing labels indicates that they have been given fire-resistant treatments must be used. No other materials will be permitted for decoration.
- Since it is nearly impossible to fire-resistant petrochemical products such as foamed polystyrene (plastic flowers, urethane, acetate, polyester, acrylic, nylon, etc.), such materials must not be used. However styrene, may be used for graphic letterings in small quantities when they are displayed far away from the visitors.
