Notes about Exhibitor Name

Exhibitor names will be listed as a list of participating companies on the official website, in the event pamphlet, exhibition hall map, and other printed materials. Basically, the names of exhibitors will be listed based on the company name entered in the application form. The following are the rules regarding the use of company names for exhibitors.

- **Nomination of Legal Entity**
 - To make it easier for visitors to see the company name in the list of companies, etc., we will use abbreviated names. Corporate names such as "Kabushiki Kaisha, Inc." will not be listed in either Japanese or English.
 - Since the main purpose is to be listed in the list of participating companies for visitors to index the company name, "product/service names" are not allowed to be listed in place of the company name.
 - Environment-dependent characters are not allowed.
- **In the case of a joint exhibition by two companies, the following description options are available (Example: Company A is the main exhibitor)**
 - 1) For 2 companies including the main exhibitor
The name of each exhibiting company should be separated by "one-byte spaces, one-byte slashes, and one-byte spaces" and written together.
Ex.) 「Company A / Company B」
 - 2) For 3 or more companies including the main exhibitor
Alphabetical listing of main exhibitors as follows
Ex.) Company A
 -Company B
 -Company C
- **Rules for Domestic/International Exhibitors**
In principle, even if a company is a foreign company, it will be treated as a "domestic exhibitor" if it has a Japanese corporation or branch office in Japan, otherwise it will be treated as an "overseas exhibitor".

If you have any questions, please contact Show Management Office.
