6. Access to the System for the following purposes:
   *For benchmark of the System including measurement of availability, capability or functionality of the System;
   *For competing purpose including develop.m.ent of a product or service to compete with the Event or the System; or
   *For duplication of feature, function or graphics of the Event or the System;
7. Act that places excessive burden on the System;
8. Act to obstruct or are likely to obstruct management or operation of the Event or the System;
9. Unauthorized access, compromise, hacking or cracking to the System or any attempt thereof;
10. Act to interfere with or snarl accuracy, integrity, safety, utility or legality of the Event, the System or data of or relating to a third party contained in the System;
11. Use of other participant's ID or password, or participation in the Event or use of the exhibition space by impersonating a third party or by using anyone else's name or a fictitious name;
12. Promotion, advertising, soliciting or business activity at the Event or through the System without prior permission of the Organizer;
13. Collection of information on other participant (including registered items and personal information);
14. Act that brings, or causes detriment, damages, loss or unpleasantness to the Organizer or a third party;
15. Storing, sending, transmitting or making available for transmission the information that falls or the Organizer deems to fall into any of the following categories:
   *Information containing excessively violent or cruel expression
   *Information containing computer virus, computer worm, Trojan horse, time bomb, spyware or any other detrimental computer program;
   *Information containing expression that defames, or damages the credit of, the Organizer or a third party;
   *Information containing excessively obscene expression;
   *Information containing expression promoting discrimination;
   *Information containing expression promoting suicide or self-injury;
   *Information containing expression promoting inappropriate use of drug;
   *Information containing expression that gives unpleasantness to others;
   *Information for the purpose of the first encounter with a person of the opposite sex;
   *Information requesting the spread of some information to a third party such as chain mail; and
   *Information containing antisocial expression;
16. Giving benefits to antisocial forces such as organized crime group, or any other act that promotes activities of antisocial forces or that is suspected to contribute to the operation of antisocial forces;
17. Act that conflicts or may conflict with the rules regarding the Event or use of the System;
18. Act that, directly or indirectly, causes or facilitates any act set forth in the items 1. through 17. above; and
19. Any other act that is deemed by the Organizer to be inappropriate.

If the Organizer judges that an exhibitor is likely engaging in any act set forth above, the Organizer may check the usage conditions, status, situation and the like regarding the exhibition space, and may take any measures that it thinks appropriate including suspension of exhibition by the exhibitor (provided, however, that the Organizer shall not be required to take such measure.). Even if such measure taken by the Organizer causes damages, loss or expenses to the exhibitor or any third party, the Organizer shall not be liable for any such damages, loss or expenses in any respect.

Delivery of visitor leads

1) Handling of personal information provided by us to exhibitors

We will provide exhibitors with the business card information of visitors scanned in their booths.

【Agreement on Obtaining of Personal Information】 (please review the sample https://frm.f2ff.jp/event-jp/images/Agreement_E.pdf) after receiving your consent, we will provide it to you with security precautions. All personal information provided should be handled under the management responsibility of each exhibitor and in compliance with the Personal Information Protection Law and other applicable laws and regulations.

2) Providing visitor's data

AiManager account information will be sent to the person in charge by the AiMeet office prior to the event, pre-registered visitor data can be viewed and retrieved in real time on the AiManager page during the event.

3) Deliverable items

The items to be delivered are the date and time of data collection and personal information: name, name (furigana), corporation name, corporation name (furigana), department, title, address, telephone number, and e-mail address.

However, the visitor data to be delivered will be the data as registered by the visitor himself/herself, so there may be some inadequacies. The secretariat will not clean the data or translate it into other languages. Please understand this in advance. The file format for delivery is CSV.

In addition to the above personal information, we will deliver data with each visitor ‘s action history.

・Date and time of booth visit.
・documents download.
・notes you take at the time.

4) Other precautions

This service does not guarantee data integrity, We recommend exchanging business cards in conjunction with the use of this service, The following personal information data will be deleted during the scrutiny phase and will not be provided.

・Data from visitors who have refused to provide personal information after registration.
・Data deemed to be deleted by Show Management Office.
・If a barcode not used for this event is read or if there is a reading error, In addition, if there is no visitor data associated with the badge code, etc.

*Leads for seminars will be delivered by the end of the next week. Please understand this in advance.

4. Move-in & Move-out

Schedule

Please refer to the Schedule section (See P.15) and plan to complete the work during the designated hours.

Badges

All personnel without the appropriate badge (See P.16) will not enter the exhibition hall for security reasons.

Working Boundaries

Exhibitors should unpack or display equip.m.ent only in their designated booth area so as not to interfere with other exhibitor, work, passage of vehicles.

Delivery and Collections

When sending equip.m.ent or exhibits to the exhibition hall via delivery services, please make sure to specify the delivery date and time, booth number and contact person and receive it on your own. Show Management Office will not be responsible for such deliveries or receive any parcels on behalf of exhibitors.

Event Name: xxxxxxxxx 2026 Hall No.& Booth No.: xxxx
Exhibitor Name: xxxxxxxxxxxxxxx
Contact person at booth: xxxxxx xxxxxx
2-1 Nakase, Mihama-ku, Chiba 261-8550, Makuhari Messe
TEL (Cell. phone): xxx-xxxx-xxxx

Overtime Work

When you cannot complete your work within the regulated working hours, please submit the application for overtime work at Show Management Office (See P.10). Overtime work may be allowed in the following hours. Overtime work charge will be ¥22,000 (incl. 10% consumption tax) per hour. When your work is completed, please report it back to the Office. Without such a report, you may be charged for overtime until 8:00 a.m. the next morning.

Move-in / out during the Exhibition

As a rule, carrying in and taking out of products during the exhibition is not allowed. In case of emergency such as when a product is broken and exchange is required, please consult with Show Management Office.

Disposal of Waste

All articles left in the hall including in the aisles will be regarded as waste material and disposed without prior notice to the exhibitor. The disposal costs will be charged to the exhibitor after the exhibition.

Official Forwarder

For the transport of exhibits and handling customs clearance, KSA INTERNATIONAL INC. has been appointed as the official forwarder and will provide you the complete transportation up to the booth as well as labor for on-site handling. Please refer to the Shipping manual and the tariff (mice-logistics@ksa.co.jp) for details.

Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

1. Regulations on Booth Decoration

During the process of completing exhibition and decoration plans, exhibitors are requested to observe the rules and take necessary precautions to prevent possible accidents, dangerous situations, and fire, etc. Show Management Office will not admit any exception to the rules. Please ensure that your contractor is also fully aware of these regulations mentioned in this manual.

Booth Unit

1 booth: 3m x 3m (9sqm), space only

Exhibit space will be provided with floor markings. There will be no booth fittings. Please decorate your respective booths at your own expense.

At minimum, the following items in booth spaces must be facilitated:

1. Carpeting
2. Exhibitor Name
3. Dividing walls, 2.7m high (partitions to neighboring booths)

Please construct a wall of height 2.7m at the boundary between the side-by-side booths.
Please do decoration processing (process white paper etc.) at the expense of exhibitors at the back wall of your booth. As an option, “Package Booth Rental” is available. Please refer to Package Booth Rental Section (See P.30-31).

Notification of Contractor

All exhibitors are requested to register their stand fitting contractor by “ Exhibitor's Website ” to by May 8. Together with the form, please upload the respective booth design drawings, front view and plan view. (The submission of drawings is not necessary when you ordered Package Booth)
This is intended to overview the decoration plan and the design features of decorations in the respective booths, and not intended to grant any permissions to requests made by exhibitors. To prevent problems during the construction, exhibitors are requested to designate a person to be in charge of the management.

Banners, Wires and Balloons

All decorations must be installed within the assigned booth space. Hanging banners and/or wires from the hall ceiling is not permitted. When displaying floating decorations, such as balloons, etc. Height restriction regulation (See P.21) should be observed and it must be fixed on the booth structure. When you plan to make such decoration, please send the respective design drawings to Expo International for their consultation by May 8.

Ceiling, Roof Structure

Since the ceiling structure (awning, roof, two-storied structure, workpiece) will be out of range from the water discharge and the smoke detector of the venue, please provide the appropriate fire prevention tool. Please note that the notification to the fire department may be necessary. If you are planning such construction, please contact Expo International with a drawing by May 8. If you are planning to have a ceiling hanging structure (hanging decorative objects from the existing ceiling of the venue), we limit it to the booth number of 20 booths or more.
Please note that there may be restrictions depending on the booth location, fire prevention measure and the state of the frame, If you are planning the hanging structure, please contact Expo International.

Flying a Drone

If you plan to fly a drone, it is necessary to take measures such as sticking the net on all sides and the ceiling of the flight area for security reason. It will be necessary to exchange the safety agreement with Show Management Office in advance. Please be sure to inform Show Management Office (exhi-info@f2ff.jp) in advance.

– INQUIRIES –

Expo International Ltd.

CHIBA / Mikolaj Banasiak

TEL: +81-3-5687-3986 E-mail: s-service@expo.co.jp

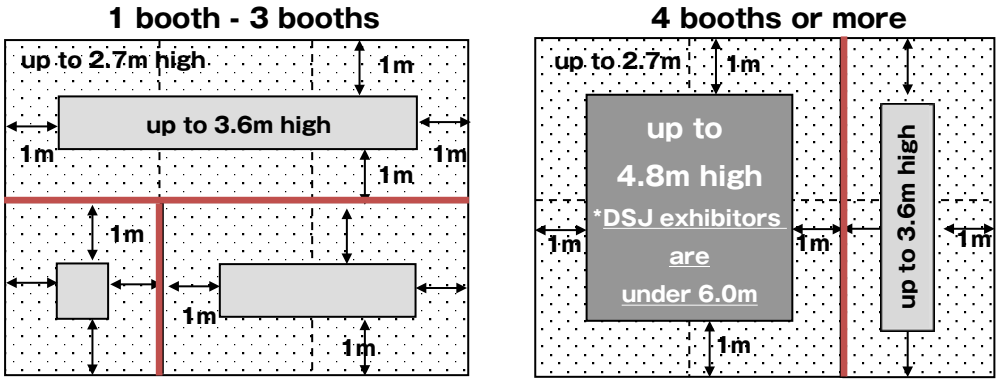
Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

2. Height Restriction, Open Structure

Height Restriction

Booth height, including, booth decoration exhibits, AV, signs, etc. is restricted as below.

- 1 booth - 3 booths : up to 3.6m high
- 4 booths or more: up to 4.8m high *Digital Signage Japan exhibitors are under 6.0m
- On booth boundaries and/or within 1m of boundaries up to 2.7m high



Partitions, to neighbor booth, 2.7mH, to be installed by each exhibitor.

*There is a height limit of 4.0m within 6m of the water cannon.

Open Structure

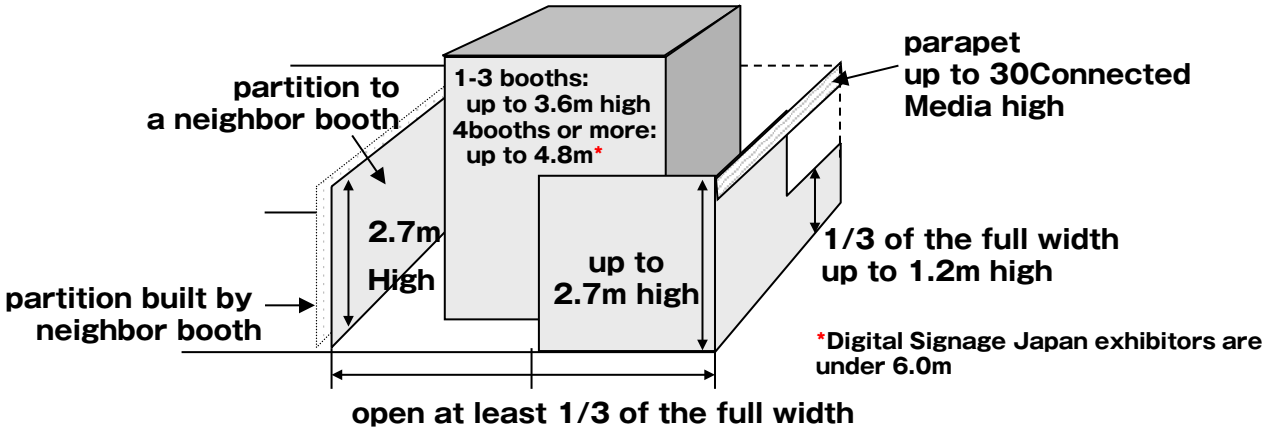
As a general rule, each booth must be an "open structure" having openings on all sides facing to aisles. When walls or display fixtures are to be situated within 1m from borderline(s), such sides of booth shall have openings at least half the total width. When a wall or display fixture is to be installed in full width of a borderline within 1m from a borderline, the height of the wall decoration must be 1.2m high or lower at least half the total width to maintain open view.

When your booth has neighboring booth(s), wall(s) in 2.7m high must be installed to all the borderline(s) to the booth(s) at your own expense. It is not allowed to utilize the wall of a neighboring booth.

If your booth is facing to the building frame, the lounge next to the building frame or the stock yards, you do not need to have the open structure on the applicable side of your booth.

*There is no open structure requirement for parallel booth exhibitors (from 1 to 4 booth units).

Partitions to Neighboring Booth



- Booths that are 100sqm or larger are required to have two emergency exits running at right angles to one another.
- When your booth is an island booth and located along with a wall of the exhibition hall, a high and full wall can be built on that side. Please make sure to provide an emergency exit and indicate its location clearly. The rear side of the wall should be decorated at your expense.
- If your booth is facing to the building frame, the lounge next to the building frame or the stock yards, you do not need to have the setback on the applicable side of your booth.

Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

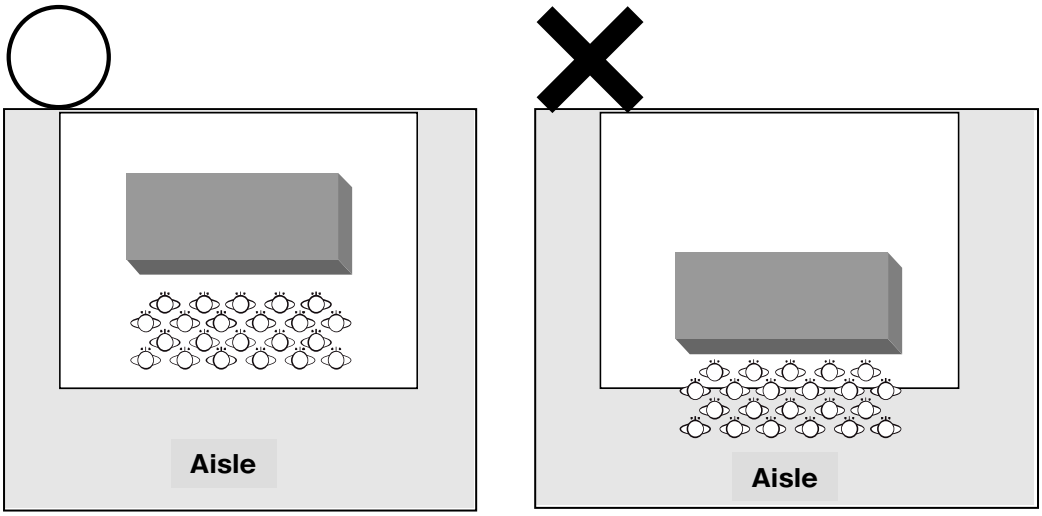
3. Demonstration at booth & Installation of Speakers

Demonstration at booth

By installation of stages, including demonstration and/or any attraction that may have audience/attendees at the booth, please design in order to keep sufficient flow of aisle traffic. Your cooperation is highly appreciated.

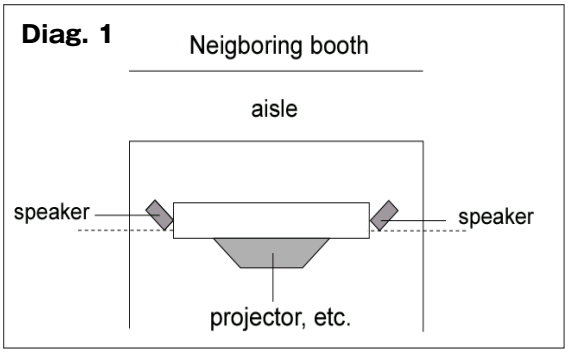
If you are installing a stage, please be sure to include it in the drawings and submit them.

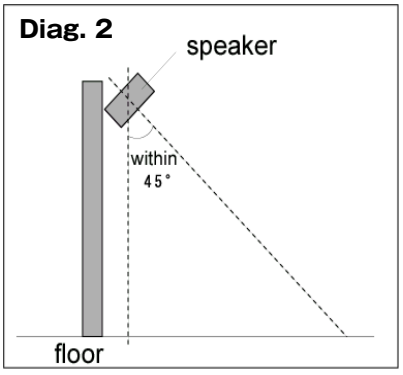
When large crowds gather to your booth and interfere with the flow of traffic down aisles or create excessive crowds in neighboring booths, Show Management Office will request the exhibitor to stop the presentation immediately.



Installation of Speakers

When installing speakers and/or microphone(s) at your booth, please make sure to place at a reasonable angle. (Diag.1) Please also keep in mind when installing a speaker, etc. on the surface of a wall or a fixture's pillar, a speaker should face in 45 degrees from its perpendicular lower part. (Diag.2) Regarding the volume control, please also refer to Precautions in the Exhibition Hall Section (See P.28).





Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

4. Decoration Materials

Fire-resistant Materials

All materials to be used for booth construction, display, etc. must adhere to the fire prevention regulations. If the materials used have not been adequately fireproofed, the Fire Station may order the removal or rearrangement of the decorations upon the inspection on the first day of the exhibition.

- **Plywood and printed veneer must be fire-resistant, irrespective of the thickness. (use only those with a "Fire resistant label" affixed on the surface and have five red lines on the back as identification.)**
- **Carpets and curtains shall also be fire-proofed and bearing "Fire resistant labels."**
- **When pasting thick cloth and/or frilled paper on the fire-resistant veneer for decorative purposes, those pasted materials must also be fire resistant. However, in case of thin paper, wallpaper, etc., this rule does not apply.**
- **When flammable decorative materials are used such as flag(s), banner(s), clot, carpet(s), artificial lawn(s), etc., must be bearing labels indicating that they have been given fire-resistant treatments must be used. No other materials will be permitted for decoration.**
- **Since it is nearly impossible to fire-resistant petrochemical products such as foamed poly-styrene (plastic flowers, urethane, acetate, polyester, acrylic, nylon, etc.), such materials must not be used. However, styrene, may be used for graphic letterings in small quantities when they are displayed far away from the visitors.**
- **When specialized decorative materials including materials manufactured outside Japan are to be used, samples must be sent to Makuhari Messe for prior approval.**
- **If the materials have not been adequately fire-resistant, the Fire Station reserves the right to order the removal or rearrangement of the decorations during the fire inspections.**

General Notes on Booth Construction

- **During the booth construction and moving of the materials, please pay attention not to damage any of the hall facilities, electrical equip.m.ent, telephones, city water supplies, and/or other exhibitors' decorations/exhibits, etc. The exhibitor who incurred the damages will be deemed responsible, and will be requested to repair the damage immediately at the exhibitors' expense.**
- **When carpeting, use only lightly glued double-sided adhesive tapes. Do not use any permanent glues or other strong adhesives.**
- **When using flames produced by electricity or gas for welding and any other purposes while moving-in/out, exhibition, such work must obtain an approval from Expo International. Further, be sure to keep a fire extinguisher nearby.**
- **Please prepare and arrange decorations only in the assigned booth area. Please do not leave materials in the aisles or other exhibitors' booths. This rule also applies to the move-out period.**
- **Please do not place decorations over fire extinguishers, indoor fire hydrants, sprinklers, automatic fire alarm systems, emergency bells, and pilot lamps, etc. Do not display exhibits or decorations which may hinder the use of these devices in case of emergency.**
- **Please be responsible for disposing of any trash and waste materials from your booth. If any materials are left in the hall, Show Management Office will dispose such materials without notifying the exhibitor and will charge the cost to the exhibitor.**
- **Smoking is prohibited in the exhibition halls by the Fire Prevention Law. Please smoke at the designated smoking areas.**
- **1 Decoration over aisles (Exhibitors whose booths are divided into two island booths across the aisle) only the upper part of the aisle between booths can be decorated. Please contact Expo International for details.**
  ※This regulation applies only to exhibitors with over 19 booths that bought the area over the aisle in advance.
- **Drilling holes into booth system panels or other modifications are prohibited. No tapes/self-adhesive sheets allowed directly on system panels. All damages will be charged back to the exhibitor.**

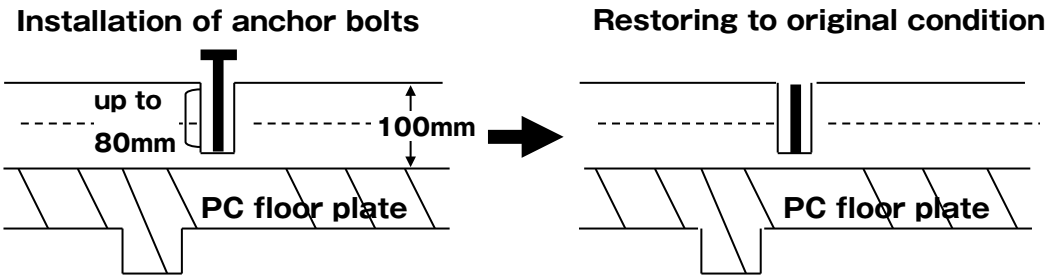
Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

5. Anchor Bolts Installation

When anchor bolts are to be used in concrete foundation, please submit 【FORM No.3 Anchor Bolts Installation】 along with two copies of the plan to Expo International by May 8.

Such applications are approved with the assumption that exhibitors will restore the floor to its original state at exhibitors' expense after the exhibition.

When installing anchor bolts, exhibitors are required to pay the floor restoration charge, ¥1,650 (incl. 10% consumption tax). Please be careful not to damage halls' floor surfaces. If any damages occur, Show Management Office will charge the exhibitors for those damages.



- The size of anchor bolts shall protrude no more than 80mm (chemical anchors cannot be used).
- Please do not use anchor bolts within 200mm area of floor pits or in pits.
- The PC floor plate must not be altered.
- When restoring to original condition, part of the anchor bolts may be left in the holes as shown in the diagram. If the bolt heads are left above the floor, cut it off by sander to make it level. Driving in with a hammer or gas welding is strictly prohibited.

6. Electricity Supply

For primary electrical work, Iida Electrical Works Co., Ltd. has been appointed. To order the main power supply, please submit 【FORM No.4 Electricity Supply】 by May 8. For secondary electrical works (in-booth), you may appoint a contractor. If you do not find any appropriate one, please contact Iida Electrical Works Co., Ltd. for such work.

Main Power Supply

100V Single-phase, 3-line system 50Hz
200V Single-phase, 2-line system 50Hz
200V Three-phase, 3-line system 50Hz

- Special voltages and frequencies other than the above cannot be supplied.
- One main switch will be installed to booth (regardless the number of booth units) according to the location request by the exhibitor on the FORM.
- The trunk line may cut across your booth due to locations of electricity pits.

Japanese plug type

Power Supply Schedule

Start : Hall 4・5・6 2:00 p.m., June 8
Hall 3・7・8 1:00 p.m., June 9
Finish : All Hall 5:30 p.m., June 12

- In the case that electricity is needed other than the above period, i.e. 24-hour supply, is required, please request it in writing on the FORM.

Charges

Power supply : ¥11,550 per KW(incl. 10% consumption tax)
*application less than 1KW is to be rounded up to 1KW)

Electricity usage: ¥4,400 per KW (incl. 10% consumption tax)

Overseas exhibitors are requested to pay the bill on-site either in cash or by credit card.

In-Booth Electrical Works (Secondary Work)

- All workers engaged in electrical works must be licensed as "Class 1 electrical service staff" under the Electric Work Specialist Act.
- For light fixtures and cables for equip.m.ent, please use cables with insulation strength higher than "F" cables.
- Please be sure to arrange ground (earth) works for all equip.m.ent and distribution boards which utilize more than 100V. Connect the ground cable to the master switch will be installed by Show Management Office.
- Please install the distribution boards where they could be easily inspected and maintained.
- The use of any neon lighting equip.m.ent is prohibited.
- During the electrical works, extreme care must be taken to prevent fire, personal injuries, and property damages.
- Please be sure to provide ground leakage breakers on the main switch of distribution boards.

Voltage

The voltage in Japan is 100 volts which is different from North America, Central Europe and many other regions of the world. The frequency of electric current is 50 Hertz in Makuhari Messe.

Please ensure that the specification of your products and apply the appropriate electricity. Using the wrong electrical voltage may result in a fire.

Protective Devices

Show Management Office will not be responsible for any damages caused to demonstration exhibits and devices due to a power failure, accidental service interruption, or voltage drop. Exhibitors must provide proper protective devices in the event of such problems. Maintenance personnel will be available on-site during the entire exhibition period. In the event of problem, even in minor, please be sure to report it to Show Management Office.

Copyright © 2026 NANO OPT Media, Inc. All rights reserved.

6. Electricity Supply

Electricity bill payments

- Payment for electrical work should be made in JPY or by credit card (Visa, Master, Amex) on site during the exhibition period.
- We would like to ask you to agree with additional JPY ¥4,000 for bank transfer fee when you want to charge the payment by bank transfer.
- Please ensure you will make bank transfer in advance, at least 10 days before the first day of the exhibition.
- We will not take any cancellations after the construction is completed and will charge you the actual cost of the work.
- All paid fees are non-refundable and non-transferable.
- If additional work is required on site, please make the payment during the exhibition period.

1. Fire Prevention

Smoking

Smoking is only permitted in the designated smoking areas.

Use of Fire, Bringing-in Hazardous Materials

In accordance with the Fire Regulations, the use of fire or bringing in hazardous materials specified in the Disaster Prevention Guide is prohibited. However, if these are necessary for the demonstration of the exhibits, etc., a minimum quantity / use may be approved by the Fire Station.

Please see below and submit 【FORM No.6 Use of Fire / Hazardous Materials】 to by May 9 when necessary.

- Use of Fire

About fire which is built in machine equip.m.ent and is not exposed, it does not apply to the regulation. However, when using flames producer by electricity or gas for welding and any other purposes while moving-in/out, it must obtain a prior approval from the Fire Station.

- Bringing in Hazardous Materials

Contents apparatus requiring prior permission is;

gasoline, lacquer, thinner, alcohol, lamp oil, light oil, heavy oil, lubricating oil, diesel engine oil, gear oil, and plant & animal oil, inflammable gas, hydrogen gas, liquefied petroleum gas, including spray cans, paint, etc.

When a smoke machine is used for stage effects, please use Co^2. Any use of oil, such as diffusion and concept, is forbidden. Moreover, please install the smoked machine inside your exhibit space. Using it towards an aisle or a ceiling is prohibited.

During the first day of the exhibition, the Fire Station will make an inspection and reserves the right to order a reconstruction of any booths violating the regulations.

Please consult with Expo International if you are not sure that your exhibits and/or presentation may require advance permission.

2. Precautions in the Exhibition Hall

Show Management Office reserves the right to evict any violating vendor at anytime. Exhibitors are requested to cooperate in maintaining the order, dignity and reputation of this exhibition.

Photographing

- **Exhibitors may photograph/videotape their own booths freely. It must be done in such a manner so as not to hinder the visitors or other exhibitors.**
- **Show Management Office will issue "Press" badge to press representatives for photographing, which must be worn at all times. Exhibitors are requested to cooperate with those photographers.**
- **Visitors may photograph in the exhibition hall. If you have any materials, etc. which you do not like to be photographed, please put signs, etc. to appeal to visitors.**

Promotion & Advertising

- **Exhibitors may freely distribute catalogs, pamphlets, samples of their exhibiting merchandises, etc. in their own booth. When such acts are done outside the booth, Show Management Office requests to stop it immediately.**
- **Publications which fulfill the below all (a)-(c) are approved for sale in the exhibition.**

  (a) Books or magazines which have distribution code, ISBN code/magazine code.

  (b) If the books or magazines have attachment(s) of electronic media, it should be just a supplement.

  (c) Publication/electronic media should be adult-free
- **Exhibitors are to be responsible for any personnel and property damage caused by their demonstrations.**
- **All demonstrations in the booth must be scheduled to finish before the end of the exhibition.**

Sound Level Policy

When using apparatus and electric appliances (such as microphones, speakers) which amplify the sound, the volume shall not be over 80 decibels which is measured at 1 meter away from the booth and at 1.5 meters high. If an exhibitor exceeds this level, or it is considered that the volume is interfering with other exhibitors, Show Management Office reserves the right to stop such a demonstration.

Eating and Drinking in the Booth

As a rule, it is prohibited to provide food and beverages to visitors in the booth. Sealed snacks or bottled beverages do not apply to this rule. When serving foods and beverages is planned, those exhibitors need to get an approval from the City Health Center first due to the sanitation law. Please contact below office for consultation.

Use of the Wireless LAN

Important Notes on Using Wireless LAN at Your Booth

- **Radio Wave Environment and Recommendation for Wired Connections**
  A vast number of wireless LAN devices will be in operation from the setup period through the duration of the event, which may lead to various issues such as signal interference. For this reason, we strongly recommend using a wired ShowNet connection for critical applications, such as booth demonstrations.
- **Wireless LAN Provided by ShowNet**
  ShowNet will provide a wireless LAN internet environment during the three days of the event. Please use this service for non-critical purposes, such as checking email or general web browsing.
  Setup Period: Please note that the ShowNet wireless environment will be under construction during the setup period and will not be available.
  Coverage: Please be aware that the ShowNet wireless LAN does not fully cover the entire exhibition hall. Depending on your booth's location, signals may be weak or difficult to connect to.
- **Connecting Your Own Wireless Access Points to ShowNet Wired Lines**
  If you connect your own wireless LAN access points or similar equipment to a wired ShowNet line at your booth, you must always implement security measures.
  If an exhibitor 's equipment suffers a cyberattack—thereby hindering the stable operation of ShowNet—or if an exhibitor becomes a source of attacks against other booths or the internet, we may perform an emergency disconnection of your ShowNet access.

Security for Exhibits

Show Management Office will not be responsible for any loss incurred by natural disasters, theft, and loss of equip.m.ent. It is highly recommended that exhibitors take necessary measures, i.e. obtain an insurance policy for the booth, or station their own security guard(s) in the booth, etc. The exhibitors are requested to take any necessary procedures to manage visitors and to maintain the booth as well.

In the event of accident, please notify Show Management Office immediately.

Radio Communications

Exhibitors who use walkie-talkies and/or wireless microphones for demonstrations, are requested to arrange equip.m.ent which are officially registered based on the radio-wave law.

[IMPORTANT Notice]

Some radio wave frequencies are prohibited to use by Japanese Law. Also, some radio wave frequencies requires appropriate license to use by Japanese government. Please make sure your wireless products are legal to use in Japan. If you violate the law, you will be punished by Japanese government.
