Precautions

Preparation of device

To connect your booth to ShowNet, you will need to have the right network equipment which has the proper interface for the standard network cables or additional network cables. Please be sure to prepare the device with the right connector for the "cable". Also, please be sure to prepare for the cables which it will connect between your devices. ShowNet and the Show Management office will not have cables and devices for rental.

Protection of the cable of ShowNet

In ShowNet, it has spread cables, such as an optical fiber / UTP Cable, under your booth. In the case of ornament things, such as preparation construction or a signboard installed in each booth, Please be careful not to damage ShowNet cable. If the exhibitor cause the damage to ShowNet cable, ShowNet (Show Management Office) will charge the amount equivalent required for restoration. Please have exhibition ornament regulation read carefully. Because position adjustment of a network cable and clearing work may be performed during move in and preparation, please do not take up a passage etc. with a carrying-in thing, garbage, etc. In order to do the prompt Move out work after a term, please do not fix, such as binding various cables to a fixtures thing etc.

The connection request to ShowNet

When exhibitor is ready to connect to the ShowNet, you can start connecting network. Network cable will be delivered from the underneath of your booth. In case of any network trouble, please visit ShowNet Service Counter at hall 1.

Lending of device

According to the kind of cables, it may need a device to be installed in your booth. In this case, ShowNet will lent out this device for connection and having exhibitor to fill out a lending document in exchange for this device by STM. Also when the show is over responsible person needs to wait at their booth for the pick up of the lent device.

Notes about security

When various security countermeasures are not performed by the exhibitor side, the attack from the Internet may be received. Please be sure to take the measure to security against all the device linked to ShowNet. The rental PC in particular may not be done in security countermeasures. Please be sure to connect to the network after performing security countermeasures. By the device which the exhibitor connected, when causing employment of ShowNet, ShowNet may disconnect your network. ShowNet will not allow you to connect to the network unless you restores your device and finish the security countermeasures. Moreover, when there is a possibility that an obstacle may occur, please give the measures from the ShowNet side and please give us the maximum cooperation in that case.

Notes about use of wireless LAN

When much wireless LAN access point are used in the same area, various problems, such as interference of an electric wave, may occur. Therefore, when wireless LAN is used, a positive demonstration is not guaranteed depending on the situation in the hall. When wireless LAN is connected to ShowNet, please be sure to perform security countermeasures like the next example. If it should be invaded by the third person it may influence other exhibitor.

The example of the security measures about wireless LAN

- Access restrictions by a MAC Address
- Access restrictions by the WPA etc.

Please understand that the hall is closed space and electric wave resources are limited. In order to make an electric wave collision into the minimum, please withhold use of the wireless LAN to the use which is not related to a demonstration.

TEL: +81-43-238-9934 FAX: +81-43-238-9936

Use of the Wireless LAN

If there are many wireless LAN access points in the same area, you may find difficulty to connect with wireless LAN.

If your exhibiting products are not wireless products, please refrain setting up wireless access points. For checking email or/and web sites, please use the official wireless network provided by the show management office.

If your demonstration need to use wireless network, please prepare the backup with wired connection to secure your demonstration environment.

Please contact show management office (netserv@f2ff.jp) if you are planning to use wireless LAN for the demonstration of your products.

If you connect with the wireless LAN provided by show management office, please configure the appropriate security set up (e.g. access control with MAC address, WPA, etc) to prevent security problem.

Security for Exhibits

The Show Management will not be responsible for any loss incurred by natural disasters, theft, and loss of equipment. It is highly recommended that each exhibitor to take necessary measures, i.e. obtain an insurance policy for the booth, or station own security guard(s) in the booth, etc. The exhibitors are requested to take any necessary procedures to manage visitors and to maintain the booth as well.

In the event of accident, please notify the Show Management Office immediately.

Radio Communications

Exhibitors who use walkie-talkies and/ or wireless microphones for demonstrations, are requested to arrange equipment which are officially registered based on the radio-wave law.

[IMPORTANT Notice]

Some radio wave frequencies are prohibited to use by Japanese Law. Also some radio wave frequencies requires appropriate license to use by Japanese government. Please make sure your wireless products are legal to use in Japan. If you violates the law, you will be punished by Japanese government.
