1. Regulations on Booth Decoration

During the process of completing exhibition and decoration plans, exhibitors are requested to observe the rules and take necessary precautions to prevent possible accidents, dangerous situations, fire, and etc. The Show Management will not admit any exception to the rules. Please ensure that your contractor is also fully aware of these regulations mentioned in this manual. Thank you for your cooperation.

Booth Unit

1 booth: 3m x 3m (9sqm), space only

Exhibit space will be provided with floor markings. There will be no booth fittings. Please decorate your respective booths at your own expense.

At minimum, the following items in booth spaces must be facilitated:

1. Carpeting
2. Exhibitor Name
3. Dividing walls, 2.7m high (partitions to neighboring booths)

Please construct a wall of height 2.7 m at the boundary between the side-by-side booths.

Please do decoration processing (process white paper etc.) at the expense of exhibitors at the back wall of your booth. As an option, "Package Booth Rental" is available. Please refer to Package Booth Rental Section (See P.26).

Notification of Contractor

All exhibitors are requested to register their stand fitting contractor by [FORM No. 3 Decoration Contractor] to Accost Corporation by May 15. Together with the form, please submit the respective booth design drawings, front view and plan view. (The submission of drawings is not necessary when you ordered Package Booth) This is intended to overview the decoration plan and the design features of decorations in the respective booths, and not intended to grant any permissions to requests made by exhibitors. To prevent problems during the construction, exhibitors are requested to designate a person to be in charge of the management.

Banners, Wires and Balloons

All decorations must be installed within the assigned booth space. Hanging banners and/or wires from the hall ceiling is not permitted. When displaying floating decorations, such as balloons, etc. Height restriction regulation (P.18) should be observed and it must be fixed on the booth structure. When you plan to make such decoration, please send the respective design drawings to Accost Corporation for their consultation by May 15.

Ceiling, Roof Structure

Since the ceiling structure (awning, roof, two-storied structure, workpiece) will be out of range from the water discharge and the smoke detector of the venue, please provide the appropriate fire prevention tool. Please note that the notification to the fire department may be necessary. If you are planning to have a such construction, please contact Accost corporation with a drawing by May 15. If you are planning to have a ceiling hanging structure (hanging decorative objects from the existing ceiling of the venue), we limit it to the booth number of 20 booths or more. Please note that there may be restrictions depending on the booth location, fire prevention measure and the state of the frame, If you are planning the hanging structure, please contact accost corporation.

Flying a Drone

In case of flying a drone, it is necessary to take measures such as sticking the net on all sides and the ceiling of the flight area for security reason. It will be necessary to exchange the safety agreement with the show management office in advance. Please be sure to inform the show management office (exhi-info@f2ff.jp) in advance.

2. Height Restriction, Open Structure

Height Restriction

Booth height, including, booth decoration exhibits, AV, signs, etc. is restricted as below.

- 1 booth - 3 booths : up to 3.6m high
- 4 booths or more: up to 4.8m high ***Digital Signage Japan in Hall 7 exhibitors up to 6.0m high**
- On booth boundaries and/or within 1m of boundaries up to 2.7m high

— Partitions, to neighbor booth, 2.7mH, to be installed by each exhibitor.

Open Structure

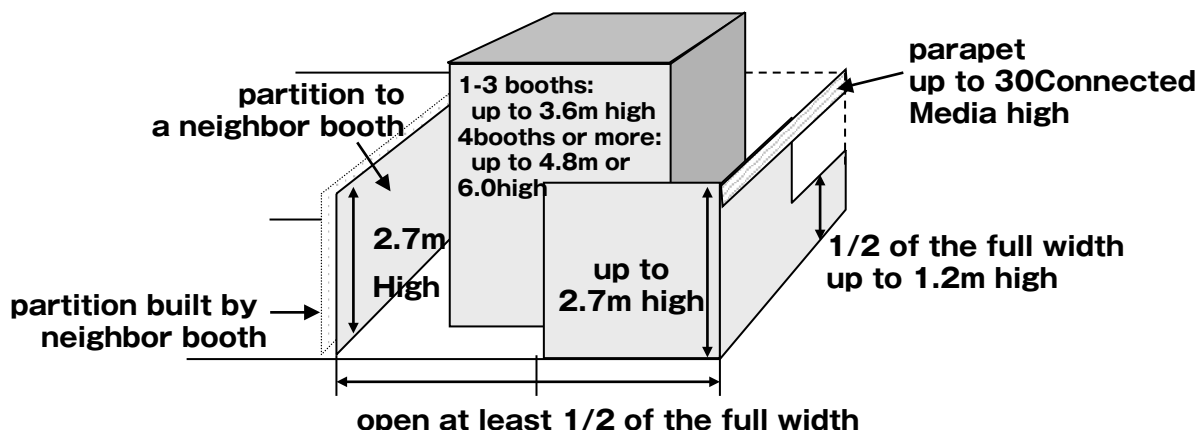

As a general rule, each booth must be an "open structure" having openings on all sides facing to aisles. When walls or display fixtures are to be situated within 1m from borderline(s), such sides of booth shall have openings at least half width of the full width. When a wall or display fixture is to be installed in full width of a borderline within 1m from a borderline, the height of the wall decoration must be 1.2m high or lower at least half of the total width to maintain open view.

When your booth has neighboring booth(s), wall(s) in 2.7m high must be installed to all the borderline(s) to the booth(s) at your own expense. It is not allowed to utilize the wall of a neighboring booth.

If your booth is facing to the building frame, the lounge next to the building frame or the stock yards, you do not need to have the open structure on the applicable side of your booth.

*There is no open structure requirement for parallel booth exhibitors (from 1 to 4 booth units).

Partitions to Neighboring Booth

- Booths that are 100sqm or larger are required to have two emergency exits running at right angles to one another.
- When your booth is an island booth and located along with a wall of the exhibition hall, a high and full wall can be built on that side. Please make sure to provide an emergency exit and indicate its location clearly. The rear side of the wall should be decorated at your expense.
- If your booth is facing to the building frame, the lounge next to the building frame or the stock yards, you do not need to have the setback on the applicable side of your booth.

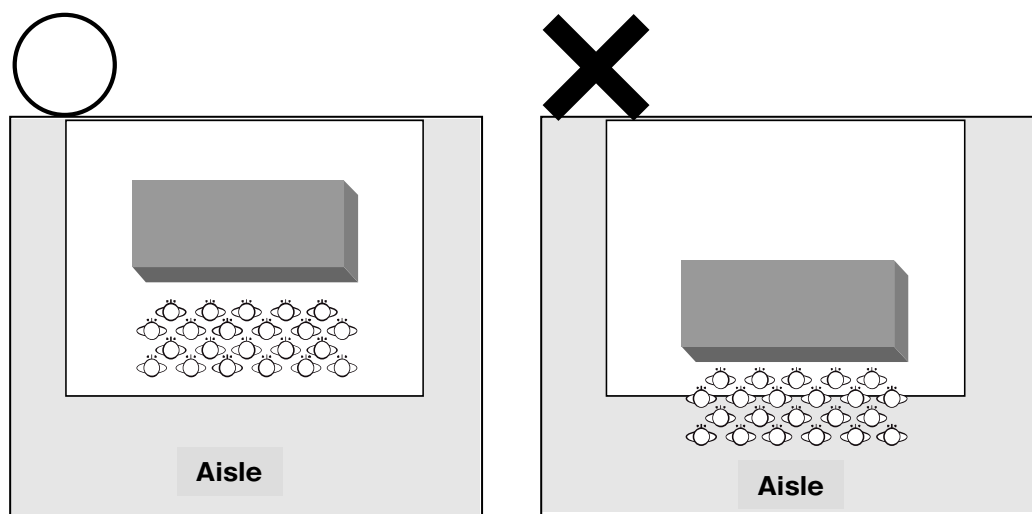

3. DeFristration at booth & Installation of Speakers

DeFristration at booth

By installation of stages, including deFristration and/or any attraction that may have audience/attendees at booth, please design in order to keep sufficient flow of aisle traffic. Your cooperation is highly appreciated.

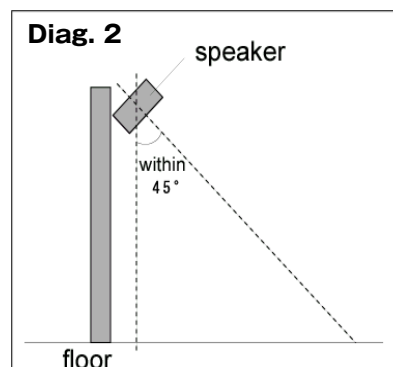

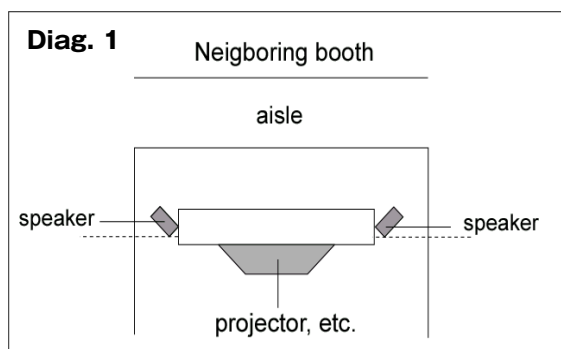

When stages are planned, please submit the booth plan to Accost Corporation by May 15 appending to [FORM No.4 Decoration Contractor] .

When large crowds gather to your booth and interfere the flow of traffic down aisles or create excessive crowds in neighboring booths, the Show Management will requests the exhibitor to stop the presentation immediately.

Installation of Speakers

When installing speakers and/or microphone(s) at your booth, please ensure to place at a reasonable angle. (Diag.1) Please also keep in mind when installing a speaker etc. in the surface of a wall or a fixtures pillar, a speaker should face in 45 degrees from its perpendicular lower part. (Diag.2) Regarding the volume control, please also refer to Precautions in the Exhibition Hall Section (See P.24).

4. Decoration Materials

Fire-resistant Materials

All materials to be used for booth construction, display, etc. must adhere to the fire prevention regulations. If the materials used have not been adequately fireproofed, the Fire Station order take down or rearrange the decorations upon the inspection on the first day of the exhibition.

- Plywood and printed veneer must be fire-resistant, irrespective of the thickness. (use only those with a “Fire resistant label” affixed on the surface, and have five red lines on the back as identification.)
- Carpets and curtains shall also be fire-proofed and bearing “Fire resistant labels.”
- When pasting thick cloth and/or frilled paper on the fire-resistant veneer for decorative purposes, those pasted materials must also be fire resistant. However, in case of thin paper, wall paper, etc., this rule does not apply.
- When flammable decorative materials are used such as flag(s), banner(s), clot, carpet(s), artificial lawn(s), etc., must be bearing labels indicates that they have been given fire-resistant treatments must be used. No other materials will be permitted for decoration.
- Since it is nearly impossible to fire-resistant petrochemical products such as foamed poly-styrene (plastic flowers, urethane, acetate, polyester, acrylic, nylon, etc.), such materials must not be used. However styrene, may be used for graphic letterings in small quantities when they are displayed far away from the visitors.
- When specialized decorative materials including materials manufactured outside Japan are to be used, samples must be sent to the Makuhari Messe for prior approval.
- If the materials have not been adequately fire-resistant, the Fire Station reserves the right to order to take down or rearrange the decorations during the fire inspections.

General Notes on Booth Construction

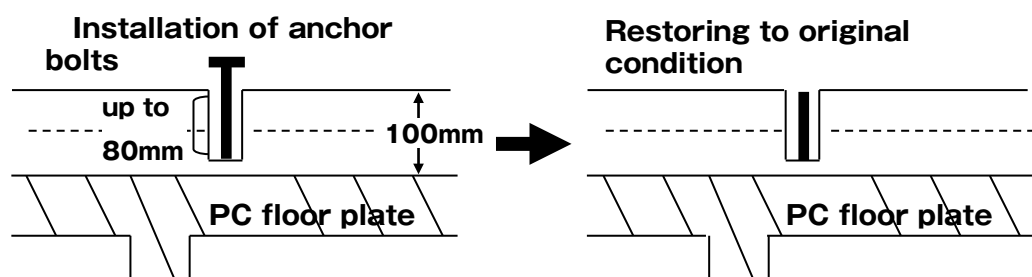

- During the booth construction and moving of the materials, please pay attention not to damage any of the hall facilities, electrical equipment, telephones, city water supplies, and/or other exhibitors' decorations/ exhibits, etc. The exhibitor who incurred the damages will be deemed responsible, and will be requested to repair the damage immediately at the exhibitors' expense.
 - When carpeting, use only lightly glued double-sided adhesive tapes. Do not use any permanent glues or other strong adhesives.
 - When using flames producer by electricity or gas for welding and any other purposes while moving-in/out, exhibition, such work must obtain an approval from Accost Corporation. Further, be sure to keep a fire extinguisher nearby.
 - Please prepare and arrange decorations only in the assigned booth area. Please do not leave materials in the aisles or other exhibitors' booths. This rule also applies to the move-out period.
 - Please do not place decorations over fire extinguishers, indoor fire hydrants, sprinklers, automatic fire alarm systems, emergency bells, pilot lamps and etc. Do not display exhibits or decorations which may hinder the use of these devices in case of emergency.
 - Please be responsible to dispose any trash and waste materials from your booth. If any materials are left in the hall, the Show Management Office will dispose such materials without notifying the exhibitor and will charge the cost to the exhibitor.
 - Smoking is prohibited in the exhibition halls by the Fire Prevention Law. Please smoke at the designated smoking areas.
 - 1 Decoration over aisles (Exhibitors whose booths are divided into two island booths across the aisle)
Only the upper part of the aisle between booths can be decorated.
Please contact Accost Corporation for details.
- ※ This regulation is only applied for exhibitors with over 19 booths that bought the area over the aisle in advance.

5. Anchor Bolts Installation

When anchor bolts are to be used in concrete foundation, please submit [FORM No.4 Anchor Bolts Installation] along with two copies of the plan to Accost Corporation by May 15.

Such applications are approved with the assumption that exhibitors restore the floor to its original state at exhibitors' expense after the exhibition.

When installing anchor bolts, exhibitors are required to pay the floor restoration charge, ¥1,650 (incl. 10% consumption tax). Please be careful not to damage halls' floor surfaces. If any damages occurs, the Show Management will charge the exhibitors for those damage.

- The size of anchor bolts shall not protrude no more than 80mm.
- Please do not use anchor bolts in floor pit cover area or in pits.
- The PC floor plate must not be altered.
- When restoring to original condition, part of the anchor bolts maybe left in the holes as shown in the diagram. If the bolt heads are left above the floor, cut it off by sander to make it level. Driving in with a hammer or gas welding is strictly prohibited.
